VACUUM SEAL

ON-SITE INDUSTRIAL VACUUM SEALING SERVICES

Revolutionizing the way you protect and transport vital equipment components, ICON Service Group is proud to unveil our cutting-edge Bag-in-Box Vacuum Sealing service. With our state-of-the-art PAC machine securely housed within a mobile box truck, we bring the power of precision sealing directly to your industrial doorstep.

**COMING SOON
MARCH 1ST**

WHY SHIP WHEN YOU CAN SEAL ON-SITE?

Say goodbye to the logistical headaches of shipping delicate parts. Our expert team travels to your industrial site or OEM facility, eliminating the need for transportation and ensuring your equipment parts stay in pristine condition.

TAILORED TO YOUR INDUSTRY

Specializing in the petrochemical, power generation, and equipment manufacturing sectors, we understand the unique demands of your industry. From critical components to sensitive machinery parts, we provide custom-tailored vacuum sealing solutions that prioritize protection and performance.

UNRIVALED VERSATILITY

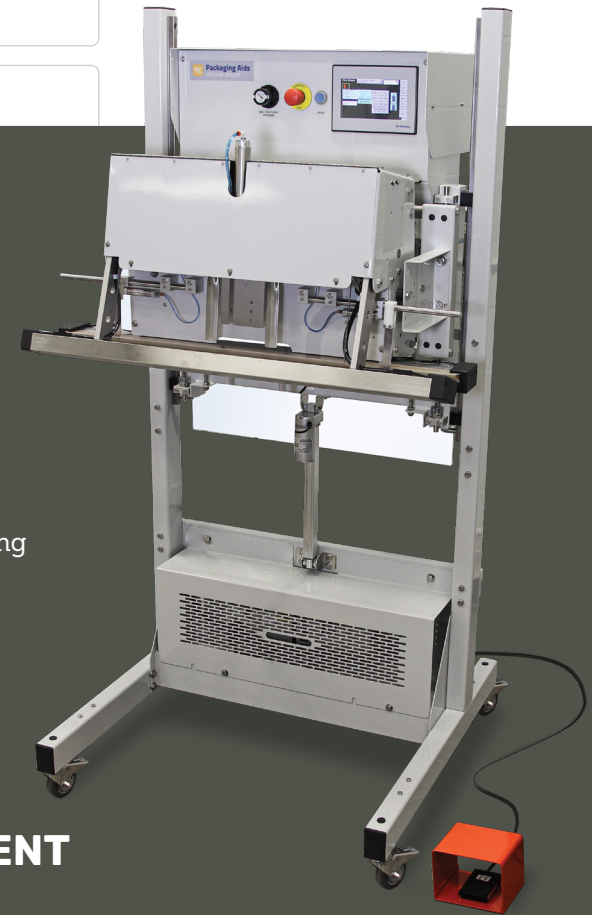

Leveraging our PAC equipment capable of sealing up to 48" bags and injecting inert gases, we offer unmatched versatility in safeguarding a wide range of equipment parts, regardless of size or complexity.

BENEFITS YOU CAN COUNT ON

- **Reduce risk** of corrosion and contamination during transport
- **Minimize the need** for expensive packaging materials
- **Streamline logistics** by sealing on-site, saving time and money
- **Enhance equipment preservation** with inert gas injection for added protection

DISCOVER THE FUTURE OF EQUIPMENT PROTECTION

Join the ranks of leading industrial entities that have embraced our innovative on-site vacuum sealing services. Experience the convenience, precision, and reliability of on-the-go sealing, tailored to your unique requirements.

CONTACT US TODAY
