SHRINK WRAPPING

ON-SITE INDUSTRIAL SHRINK-WRAPPING SOLUTIONS

Elevating the standard of equipment protection, ICON Service Group proudly presents our innovative on-site industrial shrink-wrapping service. Utilizing our mobile box truck, we're equipped to secure larger equipment and crates with heavy mil film, incorporating vapor corrosion inhibitors and offering UVI protection for up to 3 years.

UNMATCHED VERSATILITY AND PROTECTION

With heavy mil film and the option to incorporate vapor corrosion inhibitors, our shrink wrapping goes above and beyond basic protection. Additionally, the built-in or optional UVI protection provides lasting defense, ensuring your assets remain pristine and corrosion-free for up to 3 years under harsh environmental conditions.

SEAL, PROTECT, PRESERVE ON YOUR TURF

Why entrust the protection of your sizable equipment and crates to anyone else? Our dedicated team brings the power of professional industrial shrink wrapping directly to your industrial site, ensuring that your assets remain shielded from environmental elements and corrosion throughout storage and transportation.

EXPERIENCE THE FUTURE OF EQUIPMENT PROTECTION

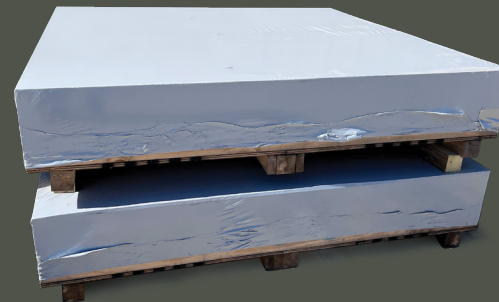

Join industry leaders who have embraced our on-site industrial shrink wrapping services and witnessed the unmatched benefits firsthand. Elevate the level of protection for your larger equipment and crates with our cutting-edge shrink wrapping solutions.

CUSTOM-ENGINEERED SOLUTIONS FOR KEY INDUSTRIES

Specializing in the needs of the petrochemical, power generation, and equipment manufacturing sectors, we understand the critical nature of your assets. From heavy machinery to oversized equipment, our industrial shrink-wrapping services deliver tailor-made solutions to meet your specific requirements.

BENEFITS THAT MAKE A DIFFERENCE

- **Protect equipment** and crates from rust, corrosion, and UV damage
- **Extend storage** and transportation lifespan with long-lasting UVI protection
- **Maintain pristine condition** during long-term storage and outdoor exposure
- **Streamline logistics** with on-site industrial shrink wrapping, eliminating the need for off-site services
